Oxida è un progetto che parla il linguaggio della ceramica artigianale, dove le differenze e le imperfezioni sono il vero valore della superficie.

Oxida speaks the language of handcrafted ceramic tiles where imperfections and diversities become the real value of the product.

CLAY

Ogni pezzo sviluppa il colore in modo differente: una volta posato, il materiale esplose il colore in molteplici toni brillanti.

In every single tile the colour evolves in a different way; on the wall, the material enhances the colour in an endless variation of bright shades.
